FTP SITE HOSTING LAUNCHES

PENNSVILLE, NJ, JANUARY 1, 2008: Total Networking Solutions LLC, South Jersey's Elite IT Company, launches its FTP Site Hosting. The FTP Hosting solution is named "FTPsolution". By offering FTPsolution for anyone and everyone, it will allow mobile users a secured file location that will be backed up every night. "By using the WS_FTP Server 6.1 with SSH technology by Ipswitch, we are using the most secure and best overall FTP server platform on the market today", said Mark Brown, CEO of Total Networking Solutions LLC.

There will be some minimum requirements on the end-user side. FTPsolution will not allow Internet Explorer, Firefox or any other Internet browser to connect to the server. The end-user will have to purchase the most recent version of WS_FTP Professional Client to make the FTP connection. FTPsolution can be taken a step further by establishing a VPN connection to the server using an ADTRAN NetVanta 2050 with VPN.

About Total Networking Solutions LLC: Founded in February 2000, Total Networking Solutions LLC has distinguished itself as South Jersey's Elite IT Company, offering a complete full line of IT services. Total Networking Solutions LLC offers monthly and yearly contracts to all corporate clients, provides a 24x7x365 Help Desk to its clients, offers WAN network monitoring in addition to Server and LAN monitoring and offers a loyalty based service agreement.

About Ipswitch, Inc: Ipswitch develops and markets software products and services for businesses worldwide. More than 100 million people use Ipswitch software to monitor their networks with Ipswitch WhatsUp®, transfer files over the Internet using the market-leading Ipswitch WS_FTP® Professional client and Ipswitch WS_FTP Server and communicate via IMail™ Server. Headquartered in Lexington, Massachusetts, Ipswitch also has Research & Development centers in Atlanta and Augusta, Georgia and a European sales and support office in Amsterdam, The Netherlands. Ipswitch sells its products through distributors, resellers and OEMs in the United States, Canada, Latin America, Europe and the Pacific Rim.
